EDUCATION

University of Houston

Doctor of Philosophy in Electrical and Computer Engineering

Houston, USA

Aug. 2024 – Present

Shenzhen University

Master of Science in Mathematics and Applied Mathematics

Shenzhen, China

Sept. 2021 – June 2024

- Ranking: 1/28(2022-2023), 2/28(2021-2022)
- Relevant Courses: Image Processing and Analysis, Matrix Theory, Functional analysis, Algebra and Topology, Statistical Learning, Convex Analysis and Optimization
- First-class scholarship recipient (top 10%)
- Tencent Founder Scholarship recipient (top 1%)

Guangzhou University

Bachelor of Science in Mathematics and Applied Mathematics

Guangzhou, China

Sept. 2017 – Jul. 2021

- Relevant Courses: Mathematical Analysis, Advanced Algebra, Functions of Complex Variables, Functional Analysis, Ordinary Differential Equations, Probability Theory and Mathematical Statistics, Numerical Analysis, Mathematical Modeling

PUBLICATIONS

Zhou, C., Wu, S., Sun, J., Chen, J., Huang, Y. Probabilistic inversion of airborne electromagnetic data using conditional variational autoencoder: Yellowstone case study (accepted by TGRS)

Zhou, C., Wu, S., Sun, J., Chen, J., Huang, Y. Deep Learning-based Probabilistic Imaging of Yellowstone's Hydrothermal System from AEM Data (Abstract accepted by AGU2025)

Zi, Y., **Zhou, C.**, Chen, J., Han, Zhu., Huang, Y., Wu, X. Hyperspectral Methane Plume Segmentation Through Foundation Computer Vision Models (accepted by *IEEE Access*)

Chen, B., **Zhou, C.**, Sun, X. Enhancing green screen matting with group normalization and perceptual loss for color overflow and complex edges (accepted by *The Visual Computer*)

Zhou, C., Walker, L., Fu, X., Chen, J., Huang, Y., Wu, X. A Mobile Platform for AI-Powered Underwater Image Processing (accepted by *Offshore Technology Conference 2025*)

Zhou, C., Chen, B., Zhang, Y., Chen, W., Pan, B., Ji, J. Underwater Image Enhancement via Multi-color Space Correction and Fusion (accepted by *International Conference on Electronic Information Engineering and Computer Technology 2023*)

RESEARCH EXPERIENCES

UH MODAL Laboratory

Research Assistant to Dr. Jiefu Chen

Houston, USA

Aug. 2024 – Present

Pengcheng Laboratory

Research Assistant to Dr. Qianqian Tong

Shenzhen, China

Aug. 2023 – Jan. 2024

Shenzhen University

Research Assistant to Dr. Bo Chen

Shenzhen, China

Oct. 2021 – Jun. 2023

Guangzhou University, Laboratory of Mathematics and Interdisciplinary Science

Research Assistant to Dr. Yubin Zhong

Guangzhou, China

Aug. 2018 – Sept. 2018

SKILLS AND TECHNIQUES

Computational skills:

- **Programming Languages:** Proficient in Python, MATLAB, Linux Shell
- **Mathematics Tools:** Lingo
- **Traditional Machine Learning and Deep Learning:** Decision tree, SVM, logistic model, kNN, general linear regression models SVD, PCA and Matrix Factorization

Software

- Adobe Photoshop and Illustrator, Microsoft Office Suite

SELECTED AWARDS AND HONORS

- Tencent Founder Scholarship (top 0.6%), 2023
- First-class scholarship for graduate students (top 10%), 2023

- First-class scholarship for graduate students (top 10%), 2022
- Second prize in APMCM Modeling Contest (top 30%), 2022
- Research Excellence Prize for Undergraduate Students (top 30%), 2021

TEACHING EXPERIENCES

Shenzhen University, School of Mathematical and Statistical Sciences

Shenzhen, China

Teaching Assistant

Sept. 2022 – Sept. 2023

- Assisted Professor Bo Chen with class preparations for the ‘Linear Algebra’ and ‘Image Processing and Analysis’ for incoming freshman.
- Graded monthly class assignments for students.

ADDITIONAL INFORMATION

LANGUAGE

- Mandarin – Native speaker
- English – Professional

INTERESTS

- Photography, Skiing, Badminton, Tennis.
